

34, 34.5, 36-D, 36-DD, 34-NC, 34-BO SERPENTINE SHOWER FLOORS

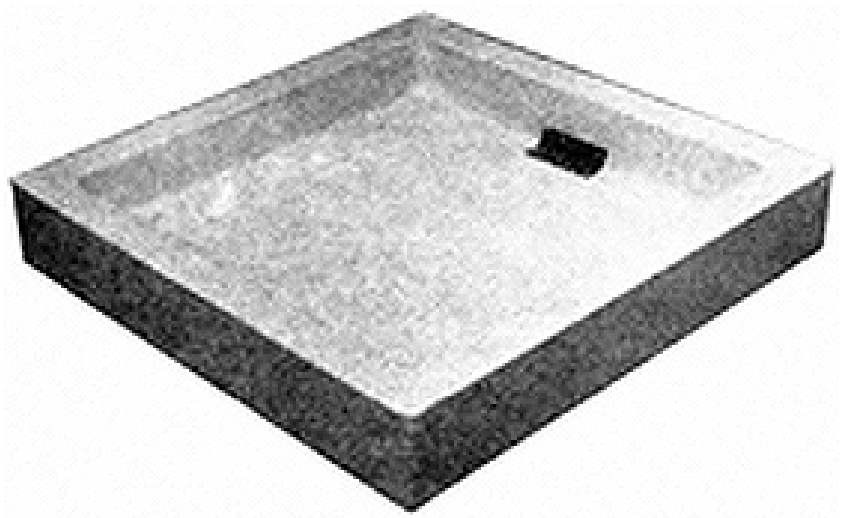

The Serpentine Floor Models are institutional shower floors and are available in square, rectangular, and corner models. The Model 34-BO Serpentine Floor is built with a back outlet drain.

FLANGED and/or rabbet or off-the-floor roughing. Specify plain shoulders for installation flush against room wall.

Model 36-DD features a double drain

Model 34-NC is a neo-corner

Model 34-BO features a back outlet drain

FEATURES

- High 6" side wall
- Specify tiling flanges for tile wall construction (i.e.: 34-BO-FFF three tiling flanges)
- Specify cast rabbets (i.e.: 34-BO-R provide rabbet configuration) to hold precut, drop-in panels of partitioning material

(Shown above) Model 34-BO

DIMENSIONS

All dimensions subject to manufacturing variance of plus or minus 1/4" (6 mm)

Specify: Plain curbs

Add suffix for: Flanges (-F: 1, 2 or 3), or Rabbets (-R: specify configuration)

MODEL	SIZE	A	B	C	D
