

SOLAR LIGHT OPTION -100

Stern-Williams' -100 is an innovative solar powered lighting device that provides a safer experience for anyone using our fountains between dusk and dawn. The -100 is an add-on option for a variety of Stern-Williams drinking fountains, bottle fillers and shower towers.

PRODUCT FEATURES

- Bright 6000K LED lights with up to 10' diameter throw
- Easy installation and operation
- Lighting in remote areas where power isn't available
- Weatherproof design for long lasting functionality
- Dusk to dawn sensors for light only when needed
- Adjustable orientation for best solar charging capability
- Adaptable to many Stern-Williams' products
