

**2025 LIST PRICE BOOK**  
*Drinking Fountains & Shower Towers*

## ABOUT

Stern-Williams Products, LLC opened for business in 1962, beginning only with a few terrazzo mop sink models, which we have gradually expanded to include one of the most complete lines of precast plumbing products. Stern-Williams is a manufacturer of terrazzo mop sinks, shower floors and cabinet packages, and a complete line of drinking fountains, shower towers, bottle fillers and pet fountains.

## MISSION

We specialize in custom solutions designed to fit your space, your specs and your needs. Stern-Williams strives to provide "A" quality services and products and is committed to be your best supplier. Our customer service is US-based with live support when you need it.

## CONTACT

- ☐ **95:** Sand trap
- ☐ **96:** Sand strainer plate
- ☐ **SS:** Stainless steel body

**PART NUMBER:**  
**5335-FP-90-SS-FP**

# FOUNTAIN & SHOWER FAQs

## What is the difference between Chrome Clear and Silver?

Chrome Clear is a white aluminum (RAL9006). Silver is a polished aluminum (HSS-2345).

Chrome Clear

Silver

## What to do if water dribbles out of the bubbler or will not shut off.

If either of these occur, debris is most likely stuck in the push button valve seal. To fix, flush out system with a 5/32" hex wrench and adjust the set screw to full power for 30 seconds.

## What is the flow rate of our drinking fountains and shower towers?

The flow rate of drinking fountains is 1.5 GPM, shower towers are 0.5 GPM and the flow rate of jug fillers are 3-3.5 GPM.

## Why is water sitting in the fountain drain?

The drain is not angled enough for the water to flow out. To fix, unhook the drain line from the PVC elbow below the bowl and tilt the drain line towards the center to allow water to flow out.
