

SB-900

SERVICEPTOR

MOP SINK

BUILT TOUGH. MADE TO LAST. DESIGNED FOR DEMANDING SPACES.

The SB-900 SERVICEPTOR® mop basin delivers unmatched durability and performance for commercial and institutional environments. With rugged Terrazzo construction and smart design features, it's built to handle heavy, daily use while keeping maintenance simple.

FEATURES

- Heavy-duty Terrazzo construction
- Resists chipping, cracking, and wear
- 12" High Walls help contain splashing and keeps surrounding floors cleaner and safer.
- Customizable - sizes, drain locations, tiling flanges, etc.
- Available with plain shoulders or stainless steel caps to meet project requirements.
- One-piece stainless steel cap protects basin shoulders with a clean, professional finish.
- Designed for secure installation and long-term reliability.
- Easy maintenance
- Factory sealed surface resists stains and simplifies cleaning.
- Fire resistant - no toxic fumes

IDEAL APPLICATIONS

- Schools & Universities
- Healthcare Facilities
- Commercial Buildings
- Industrial & Institutional Spaces
